FAMILY PHOTOGRAPHY

Let me show you how you feel,
because in a busy life
photographs remind us of what is most important.

PHOTO USB WITH ONLINE GALLERY

Let me tag along while you walk the dog, have morning tea or renovate your old Queenslander.
It's not about posing. It's about living and loving.
I will turn up 'wearing' my 2 cameras and photograph all the fun as it happens.

Whichever option you choose, the following is always included...

"First Photos" gallery uploaded to my blog within a few days
High Resolution Files of images, supplied on a **USB**, ready for printing
Social Media Images, resized and ready to share straight to Facebook or Insta
A private, **Online Gallery** with a curated selection of the final edited photos
A Mobile App for the Online Gallery
Online Print Service so you, family & friends can order their own prints

1 hours session ~ \$495
a minimum of 50 edited photographs

4 hours coverage ~ \$1,295
a minimum of 200 edited photographs

EXTRA INFO

No posing, no props, no special wardrobe requirements, no prompts to "say cheese".
Talk to me about ideas, no matter how crazy.
We can also talk about perfect locations, whether in your home or out in the wild!
Both Colour and Black & White versions supplied.
Happy to organise prints and albums for you.
